

Effective STEM Engagement

National Museum Cardiff

Saturday 19th November 2016

10:00am - 2:30 pm

Inspirational lectures and workshops for Primary & Secondary teachers that aim to address the new science and technology curriculum.

Keynote Talks

Join **Professor Averil Macdonald OBE** to discuss the myths and facts about why girls do and don't choose STEM and find out about a new approach to show that STEM is for 'People Like Me'.

Bring science to life for your students with practical science demonstrations from **Wendy Sadler—Science Made Simple** that are accessible to all and learn how they can help develop higher thinking skills in your classroom.

Workshops

Practical Primary Science—Louise Stubberfield, Wellcome Trust

Wriggling through Numeracy & Literacy— National Museum Cardiff

A Literacy Approach to Science—Glen Gilchrist CSCJES

Science Show—Techniquet

Accessing Real Science—Sue Diment, Cardiff University

Coding for Science—Laura Roberts, Technocamps
