

STEM in the new Curriculum

Saturday 13th October 2018

10am - 2.30 pm Doors open 9.45am for registration

St Fagans National History Museum

A one-day conference for primary and secondary teachers, learning professionals and scientists exploring the opportunities that the new curriculum will bring.

Tom Crick, Chair of the Science & Technology Area of Learning and Experience (AoLE) & National Network for Excellence in Science and Technology (NNEST), will join us for a **panel discussion** about the proposed changes to the curriculum.

Breakout sessions will give you an opportunity to discuss STEM in the new curriculum with other

Hands-on workshops will cover a range of topics including habitats, planning a mission to space, coding and even marine science. All of which aim to provide practical ideas for supporting teaching STEM in light of a
