Amgueddfa Cymru - National Museum Wales is at the heart of the heritage and cultural life of Wales. 5 million objects and memories from Wales' national collections of art, history and science are used to inspire the nearly 1.9 million people who visit our national museums every year.

The breadth and the quality of our collection combined with the range of our disciplines make us unique.

Arts, Heritage and Culture in Wales

The arts, heritage and cultural sector is a vital source for economic growth in terms of jobs, employment and cultural tourism. The Museum's annual contribution to the Welsh economy is over £83 million of gross value added (2018-19).

Our ambition is to enable as many people as possible to enjoy and participate in our museums. This is embodied in our vision '**Inspiring people, changing lives**'

We inspire people to find a sense of well-being and identity, to discover, enjoy and learn bilingually, and to understand Wales' place in the wider world.

Our cultural lives are an integral and indivisible part of who we are. We aim to actively engage everyone in deciding what counts as culture, where it happens, who makes it, and who experiences it. Through our seven different Museums and Collection centre, we contribute to making Wales a better place to live, work, invest and visit for future generations.
