

Content Creator roles

The Bloedd AC Instagram account is a platform where we share workshops, events and projects. We would love it to also reflect the interests and passions of young adults living in Wales today, exploring heritage and sharing perspectives on our collections and Museum digitally. Bloedd AC Instagram

We are looking for a group of Amgueddfa Cymru Producers from across Wales who are keen to produce content for us to share on our social media platforms and collaborate more widely with our Amgueddfa Cymru marketing team. There will also be editing opportunities to create short form content from project video documentation. This is an opportunity for young freelancers and those interested in developing their skills and portfolio as videographers, photographers and social media content creators.

We have eight sites across Wales. You can get to know them better here:

Each site has its own collection, exhibitions, project and programmes of events. We are keen to share these more widely in a way that speaks to younger audiences. This would also be a great opportunity for us to do digital outreach in growing the Amgueddfa Cymru Producer network and those interested in our Bloedd programming. You will be supported by Engagement and Volunteer Co-Ordinators from each site.

We are keen to build our Welsh language content creator pool although it's not essential! We also encourage other languages and cultures connected to Welsh heritage to be created and shared.

What you'll be doing

- Designing posts
- Creating reels and videos
- Editing short form content
- Producing and proof-checking transcriptions
- Branding and subtitling – Bilingual language policy
- Documenting projects and events
